WORK EXPERIENCE

AlphaSense

SR WEB DEVELOPER

August 2022 - Present

- Led the development of complex web applications using cutting-edge technologies, ensuring high performance and scalability to meet business needs.
- Collaborated closely with cross-functional teams, including product owners, designers, and quality assurance engineers, to deliver outstanding products that exceeded customer expectations.
- Contributed to the development of company-wide coding standards and best practices, ensuring code quality and consistency across all projects.

PriceWeber

SR WEB DEVELOPER

June 2022 - January 2023

- Developed well-designed, thoroughly tested code using industry best practices for website development, with a particular emphasis on mobile and responsive design.
- Created websites and user interfaces that seamlessly integrate data from back-end databases and services, utilizing standard HTML/CSS practices to deliver consistent, high-quality results.
- Prioritized customer satisfaction by responding quickly and meticulously to small edit requests, while also devising comprehensive project plans, collaborating closely with team

members, and identifying innovative solutions to enhance website functionality and user experience.

Sagefrog Marketing Group

SR WEB DEVELOPER

June 2019 - May 2022

- Deployed new features and optimize system performance and reliability as a Front End Web Developer, utilizing cutting-edge technologies to create sophisticated HTML5 and JavaScript applications.
- Designed comprehensive Server and Client-side architectures that support seamless integration of features and functionality, enabling clients to offer an unparalleled user experience.
- Mentored junior programmers, sharing valuable insights on efficient problem-solving and debugging techniques, to drive continuous learning and development within the team.
- Streamlined website page speed scores and load times by removing render-blocking code and building custom solutions, leading to increased lead generation and customer conversions for clients.

Freelance

WEB DEVELOPER

January 2012 - January 2022

- Redesigned existing websites to improve user experience, enhance UI/UX and strengthen search engine rankings.
- Designed, implemented, and maintained web applications and sites for scalability in fast-paced environment.
- Reviewed code to validate structures, assess security and verify browser, device, and operating system compatibility.
- Routinely implementing modern features as they gain appropriate browser support to decrease development time and improve quality of company's code base.
